

Family Law Mediations & Arbitrations

Effective negotiation. Agreements reached.

The Best Legal Representation

Prior to COVID-19, the family court's resources were at maximum capacity, with thousands of matters to be heard, and a backlog of trials.

We recognise that mediation or arbitration is the best way to resolve matters as it quick, cost-effective and allows parties to have some control over the outcome.

We have experienced family lawyers conduct mediations, arbitrations and court hearings online by way of telephone, Zoom conferencing or in the case of the courts, by conducting hearings using Microsoft Office Teams.

Our Family Law Mediations and Arbitrations Team have quickly adapted to assist clients under the COVID-19 restrictions and new court requirements. We conduct all our initial consultations by telephone or by video-conferencing.

Avoid costly court proceedings.

Save time, money and heartache.

Choose mediation or arbitration over a judge.
